

Tall Timbers and fire ecology are synonymous. Since 1962, Tall Timbers has held 24 Fire Ecology Conferences, producing peer-review proceedings for each. A signature product of Tall Timbers is the E.V. Komarek Fire Ecology Database. Accessible from our Web site, the Fire Ecology Database provides access to over 23,000 bibliographic records for a unique, extensive collection of fire ecology literature.

*Tall Timbers promotes prescribed fire as a safe way to apply a natural process, ensure ecosystem health and reduce wildfire risk.*
